

# Shivam Wankhade

## Software Engineer

T4B-1804 Godrej Infinity Society,  
Keshav nagar,  
Pune – 411036

Mobile : (+91) 9561702203  
Email : shivamwankhade28@gmail.com

## OBJECTIVE

To build the career as an Software Engineer Professional with sincere dedication towards the esteemed organization and to help organization to achieve its goal with effective decision making, knowledge and problem solving skill, with team members.

## TECHNICAL SKILLS

<b>Scripting &amp; Programming</b>	J2SE,J2EE, MYSQL
<b>Operating System</b>	Windows 7/8/10, Linux – Ubuntu
<b>Databases</b>	MySQL , MongoDB
<b>Technology And Tools</b>	1. Selenium WebDriver(Functional UI Automation) 2. Appium(Mobile Automation) 3. ExperiTest 4. Rest-Assured (Rest-API automation) 5. Selenide 6. Spring MVC 7. Hibernate 8. JIRA

## KEY-SKILLS

1. Designed and Implemented Web based testing server by using J2EE(Spring MVC and Hibernate) from scratch.
2. Designed and Implemented Rest Assured and Hybrid selenium framework from scratch.
3. Configuration of Linux-Ubuntu Server for UAT environment.
4. Maintenance of POM design pattern framework.
5. Effective Decision Making.

6. Coordination with team and project manager to the timely release of products.
7. Used to work in Linux-Ubuntu environment

## **EXPERIENCE**

1. **Xtreme-media PVT LTD - Software Engineer**  
September 2017 – February 2020
2. **Akirhs Software Solutions - Software Engineer**  
March 2020 - March 2021
3. **Betsol Software India**  
March 2021 - Present

## **JOB Description**

1. Customization of automation framework as per requirement.
2. Configuration and environment setup for UAT Linux-Ubuntu server.
3. Implementation of Automated scripts through Selenium Web-driver.
4. Planning and Designing new frameworks
5. Designing and Implementing automation test frameworks like Rest-Assured framework for Web Services automation testing and Hybrid automation framework for regression and sanity testing for good quality of product.
6. Maintenance of automation framework and scripts.
7. Write MySQL scripts for database testing using JDBC and Hibernate.
8. Identifying automation test scenarios and test cases.
9. Maintenance of automation test scenarios and test cases.
10. Test-Suite execution and share the result with team.

## **PROJECTS**

### **1.Web Automation Framework**

**Description:** This project is developed for regression , sanity , performance and database testing. Anyone can write automated test cases in it for that no need of technical understanding. It is purely a web application name as Testing server.

**Role:** Team Lead

**Team Size:** 5

**IDE:** Eclipse Photon

**Platform:** Java 1.8

**Front-End:** AdminLTE (Theme) , HTML , CSS , JQuery , JSP

**Back-End:** Spring MVC, Hibernate

**Database:** MySQL, **WebServer:** Apache tomcat

### **2. Digital Signage Server (Selenium- Functional Automation)**

**Description:** This project is developed as 3-tier architecture (Main Server-Local Server-Client) to reduce the load of main server. It includes python scripts(Libsync server) for media synchronization. This is centralized server which is used for all clients of Xtreme Media.

**Client:** Honda, Wave Media Pvt Ltd, Axis bank, Cinepolis, Inox, PVR, Wipro, Infosys, etc.

### **3. ORDER MANAGEMENT SYSTEM(Selenide- Functional Automation)**

**Description:** In this project, we can register guests and book orders for the guest we can add products into the cart and make payment for it.

**Client** Royal Caribbean cruise limited.

**Role :** Automate Web-based test scenarios and framework maintenance.

### **4. GUEST APP(Appium - ANDROID & IOS Automation)**

**Description:** In this project, a guest can book a cruise for sailing and an itinerary.

**Client:** Royal Caribbean cruise limited.

**Role:** Automate android and ios test scenarios and framework maintenance.

### **5. SAND DOLLAR APPLICATION(RestAssured - Rest-API Automation)**

**Description:** In this project, a guest can book a cruise for sailing and an itinerary.

**Client:** Royal Caribbean cruise limited.

**Role:** Designed REST API automation framework from scratch and testcase development.

### **6.Oceana-Analytics(Selenium- Functional Automation)**

**Description:** In this project, a customer can make a call,sms,email to call center/Help Desk to resolve their queries.

**Role :** Write automation test-cases and execute test suite in the beginning of every sprint.

## **EDUCATION**

**Vidhyanidhi Info-Tech Academy, Mumbai - PG-DAC (CDAC)**

Feb 2017 - July 2017

Secured - 67.38%

**H.V.P.M. COET, Amravati - B.E (I.T)**

June 2013 - June 2016

Secured – 58.68%

**VYWS Polytechnic, Badnera- Diploma (Computer Technology)**

JUNE 2013

Secured - 59.23%

**New High School Main, Amravati - Xth**

Feb 2010

Secured – 75.00%

## **HOBBIES**

- Listening Soft and Rock music
- Book Reading

## **PERSONAL DETAILS**

- **Name** : Shivam Ganesh Wankhade
- **Gender** : Male
- **Date of Birth** : 28 - 02 - 1995
- **Nationality** : Indian
- **Languages Known** : English,Hindi,Marathi
